A front-facing view of a rugged off-road vehicle, possibly a Jeep or similar, parked on a dirt trail. The vehicle is equipped with a variety of LED lighting: six round lights on a roof rack, two large round lights on the front bumper, and a long rectangular light bar in the center of the bumper. The vehicle has a black frame, large black tires with a deep tread, and a yellow and black body. The number '4460' is visible on the front. The background shows a desert landscape with mountains under a cloudy sky at dusk or dawn.

AUTOMOTIVE LED LIGHTING

LED DRIVING LIGHTS

INCREASE YOUR VISIBILITY | MAKE THE DIFFERENCE

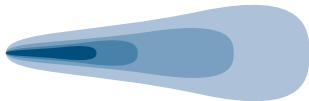

MULTI LED

Multi-LED CG2 Light Cannons are the ultimate light for blasting through the night with a powerful broad driving beam pattern and outstanding medium distance lighting coverage. Boasting over 100 lumens per watt, the CG2 Multi-LED will out perform and outshine the competition.

BROAD SPOT BEAM

Great distance beam with a moderate amount of spread. Broad spot beam pattern Vision X lights use multiple 10° optics that are specifically arranged to still provide a large amount of distance with the added benefit of spread.

ADJUSTABLE TRUNNION BRACKET

This support system allows adjustable tilt angle of the lighting; use the 4 points bolts on the sides to adjust the best lighting position. Vibration Rating: 21.2 Grms

SINGLE LED

Single LED CG2 Light Cannons take lighting to uncharted territory with incomparable distances. The industry-leading Luminous Big Chip LED and Iris Reflector throws a violent blast of light that penetrates the night up to 3,500 feet. (8.7'') If you need superior distance from your lighting, this is the solution.

EXTREME / SPOT BEAM

Longest distance beam with the smallest spread that is ideal at high speeds. Vision X lights with a spot beam will be equipped with our Iris Reflector Technology.

CG2 CANNON LED LIGHT

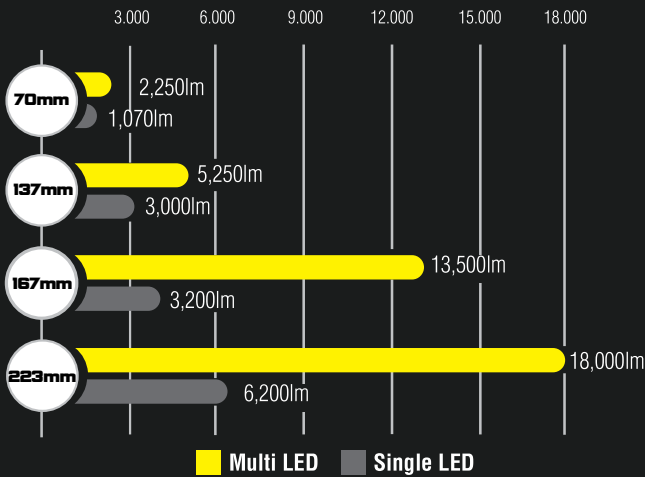

The most powerful and versatile on-road LED lighting system. Available in a Long Distance or Multi-LED Full Beam version to shine the light exactly where you need it. The Day-White lighting color allows you to comfortably see the terrain over unmatched distances.

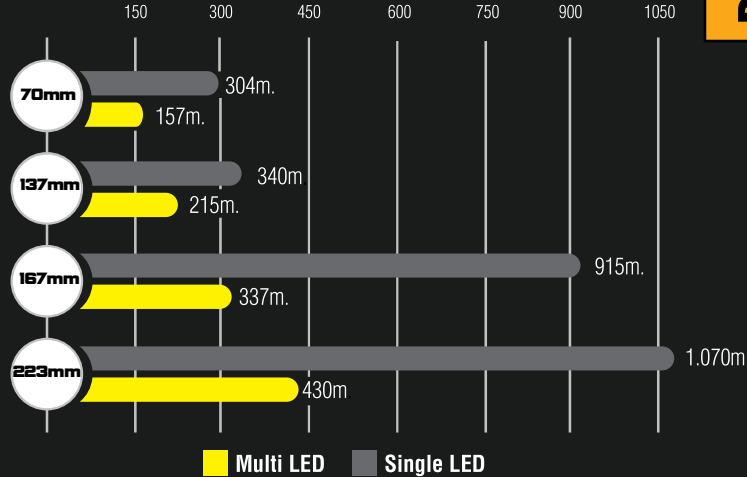

Available with Yellow Lens on request. Other beams are available on demand.

SNAP-ON | LIGHT COVERS

21 LIGHTS IN 1

WITH POLYCARBONATE COVERS

Each Light Cannon is 21 Lights In One with the help of the unbreakable polycarbonate snap-on covers that can alter the beam pattern and change the color of the Cannon. Tackle any weather condition with the proper color cover, or quickly change your spot cover to a flood cover for a wider beam when necessary.

COLOR OPTIONS

-
- BLACKOUT | PROTECTIVE**
Covers the fixture with a solid black protective cover with a high contrast "X" logo. Required in select states for on-road use.
-
- CLEAR | PROTECTIVE**
Protects light from dust, debris and particulates without changing light color or performance.
-
- AMBER | FOG**
Battles fog conditions by reducing the amount of blue light. Mimics classic Halogen color temperature. Great for driving in fog at high speeds.
-
- BLUE | SNOW**
Increases lighting distance when used in snow conditions by reflecting the blue light off the snow. Recommended for vehicles in heavy winter conditions.
-
- RED | DUST**
Reduces light temperature and glare back in order to enhance penetration in dust and air particulate. Ideal for vehicles in extreme dust conditions.

BEAM OPTIONS

- SPOT**
Spot covers maintain original lighting beam pattern while protecting the lens from harmful debris.
- COMBO**
Combo covers combine the distance of a spot cover with the added peripheral illumination of a elliptical cover.
- EURO**
Illuminate some peripherals while maintaining effective distance.
- ELLIPTICAL**
Reduces peripheral illumination while losing minor distance.
- WIDE FLOOD**
Maximum wide field of view illumination in exchange for distance.
- TRAIL FLOOD**
Maximum vertical field of view illumination in exchange for distance.

CGA-CPMHA14ME

POSITION LIGHT

Choose between White or Amber position light. With a separate wire, you'll be able to rig the position light up as a daytime running light.

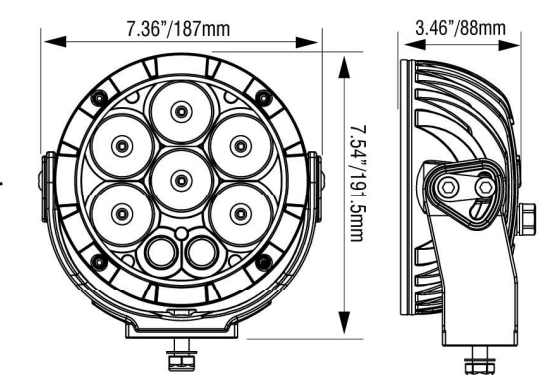

CGA-CPMH8ME

10 WATT LED

10 watt per LED with an optimized light beam Iris Reflectors to provide a spread of light at a distance

COMBO BEAM

Combining the superior distance of Iris Reflectors with two elliptical optics, the ADV Light Cannon shines a powerful and smooth light pattern for all terrains. From curving roads to high-speed trails, the Driving/Combo beam pattern is the perfect blend of light.

ADJUSTABLE TRUNNION BRACKET

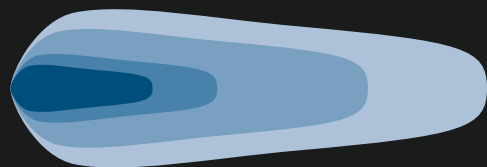

This support system allows adjustable tilt angle of the lighting; use the 4 points bolts on the sides to adjust the best lighting position.

DRIVING LIGHT

ADV LIGHT CANNON ADVENTURES JUST GOT BRIGHTER

COMBO / DRIVING BEAM

Added peripheral illumination with the benefit of distance and spread. Similar to the broad spot beam, Vision X lights that produce a combo/mixed beam are equipped with multiple optics with varying degrees that angle light outward towards the side of your vehicle but still maintain distance and spread.

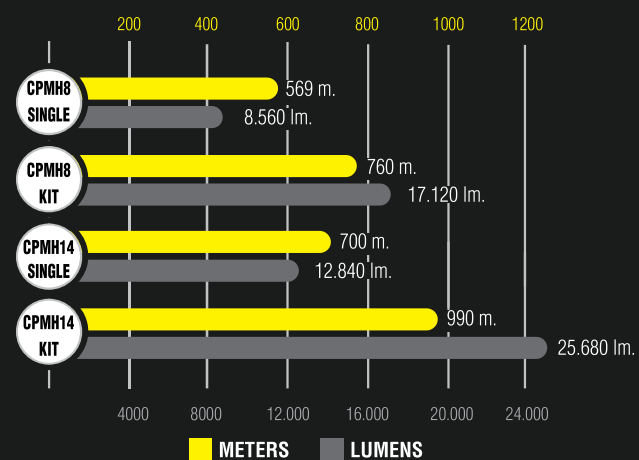

Combining the superior distance of Iris Reflector technology with the spread of elliptical optics the ADV Light Cannon series shines a powerful combo driving beam that is optimal for all terrains. With a robust 4-bolt steel trunnion bracket, the ADV Light Cannon Series was engineered to outshine and outlast the competition.

Amber or white position light ?

Give your style and personality to stand out from the crowd! Choose between White or Amber position light. With a separate wire, you'll be able to rig the position light up as a daytime running light.

DISTANCE AND LUMEN OUTPUT CAMPARISON

PHOTON LIGHT CORE OPTIC

The Mini CANNON Fog Light utilizes our new PLC optic technology to produce an ultra-wide elliptical beam that has a sharp cut-off to keep the light low to the ground and not blind oncoming traffic.

SELECTIVE YELLOW LENS OPTION

Choose between the standard clear lens and the new Selective Yellow option to maintain maximum visibility in dust, fog, rain or snowy conditions.

CG2 MINI CANNON FOG LIGHT

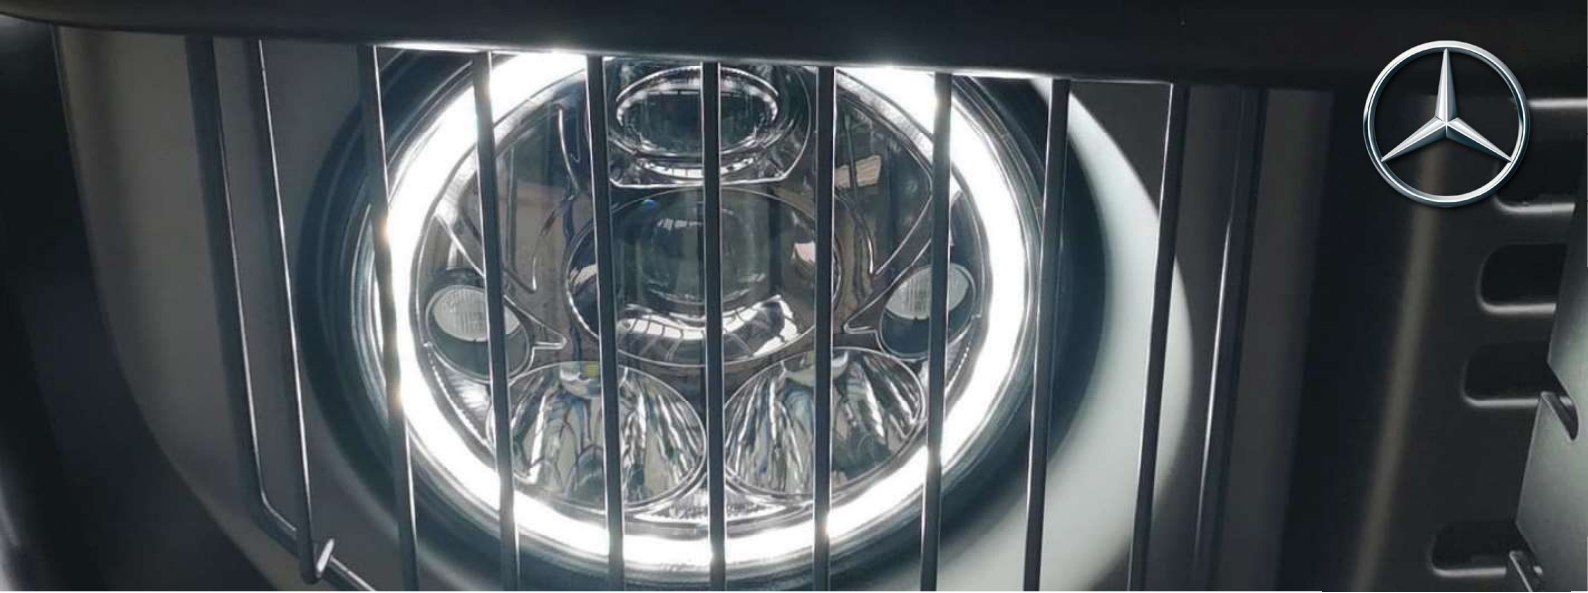

ELLIPTICAL / FOG BEAM

Flat forward spread that keeps low to the ground . This unique pattern is perfect for on-road use and is projected using a special optic type that is specifically engineered to keep the light low the ground as to not blind oncoming vehicles.

Take the streets with the new Vision X FOG series lights. Our redesigned CG2 internals now feature our patented photon core along with our tuned mixed precision optics to be able to be used on-road but still provide the same durability to handle any off-road adventure. Choose between our smaller CG2 mini cannons for an ultra-wide fog beam or our 92mm CG2 Light Cannon for high beam applications.

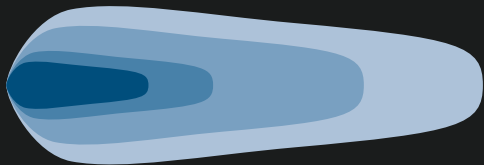

All prices are VAT excluded - Prices are subject to change without notice.

5 YEARS
FUNCTION WARRANTY
50.000 HOURS

COMBO / DRIVING BEAM

Added peripheral illumination with the benefit of distance and spread. Similar to the broad spot beam, Vision X lights that produce a combo/mixed beam are equipped with multiple optics with varying degrees that angle light outward towards the side of your vehicle but still maintain distance and spread.

The E-Mark Approved VX Series LED Headlight leads the LED Headlight industry in both style and performance. With an integrated LED Halo Ring, the VX Headlight is sure to turn heads while also delivering a dramatically improved night driving experience over factory headlights. The VX Series is currently available in 7” Round with a Polished Chrome finish , Black matte finish or a Black Chrome finish.

E-approved as driving light ECE R112.01.

POSITION LIGHT

White color of position light for an outstanding light effect, perfectly positioned in a ring.

WIDE SPREAD LOW BEAM

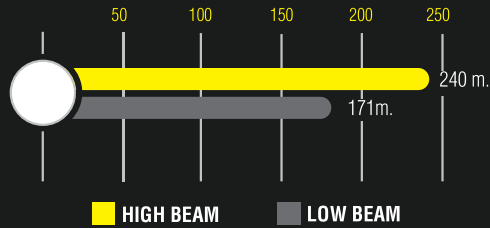

One main 12W LED produces the wide spread low beam with the help of 5W LEDs on the sides to fill in the roadway directly in front of your vehicle.

HIGH OUTPUT HIGH BEAM

Two 10W LEDs located under the low beam utilize Iris Reflectors to produce a long range high beam.

LOW BEAM / HIGH BEAM OUTPUT CAMPARISON

POSITION LIGHT

White position light with a separate wire, you'll be able to rig the position Light up as a daytime running light.

10 WATT LED

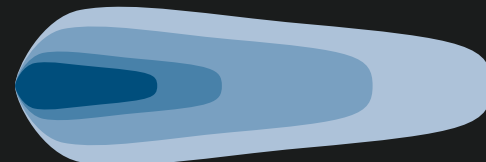

10 watt per LED with an optimized light beam Iris Reflectors to provide a spread of light at a distance.

LED LIGHT BAR

BROAD SPOT BEAM

Great distance beam with a moderate amount of spread. Broad spot beam pattern Vision X lights use multiple 10° optics or Iris Reflectors that are specifically arranged to still provide a large amount of distance with the added benefit of spread.

E-approved as driving light ECE R112.01

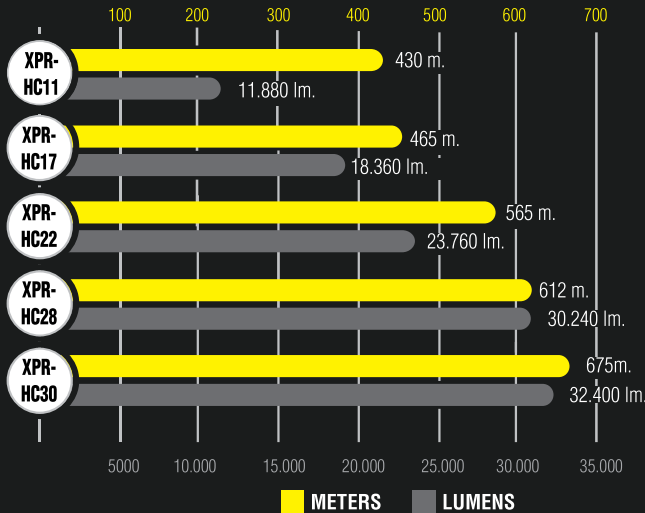

The XPR-Curved has been updated with new IRIS reflector technology to give 40-90% more distance than the XPR series, a Custom beam pattern that offers you great distance with spread to the beam and black aluminum housing.

The XPR curved comes standard with an multi-volt 11-32V DC input. Coming with Prime Drive for enhanced reliability & output and our new 10 watt LED's this light has an extraordinary light output.

White position light ?
Give your style and personality to stand out from the crowd! A white position light with a separate wire, you'll be able to rig the position light up as a daytime running light.

5 watt per LED with an optimized light beam Iris Reflectors to provide a spread of light at a distance.
Beam : 10° SPOT

POSITION LIGHT

Choose between White or Amber position light.
With a separate wire, you'll be able to rig the position Light up as a daytime running light.

LED LIGHT BAR

MAKE YOUR STYLE

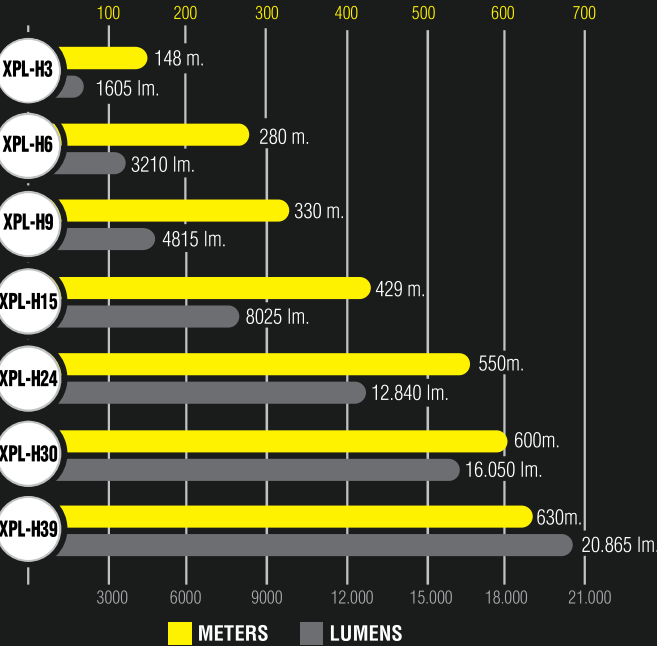

EXTREME / SPOT BEAM
Longest distance beam with the smallest spread that is ideal at high speeds. Vision X lights with a spot beam will be equipped with our Iris Reflector Technology.

The slim design combined with an attractive position light and high light output make it one of the most wanted light bars on the market. Design, performance and quality surpasses even the highest expectations. Mount it on the roof cab or in the grille with our integration kits and the massive light output increase your enjoyment and security of driving.

Amber or white position light ?
Give your style and personality to stand out from the crowd! Choose between White or Amber position light. With a separate wire, you'll be able to rig the position light up as a daytime running light.

DISTANCE AND LUMEN OUTPUT CAMPARISON

E-approved as Driving Light ECE R112.01.

SHOCKER X2 LED LIGHT BAR DOUBLE IMPACT

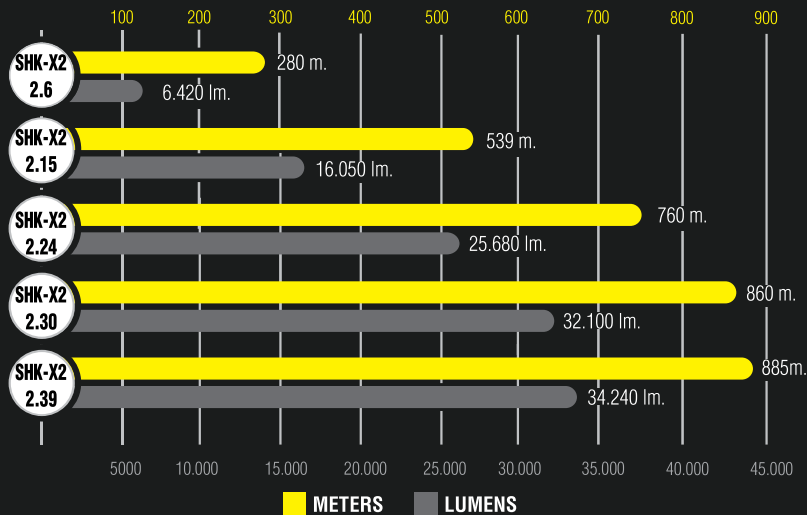

BROAD SPOT BEAM

Great distance beam with a moderate amount of spread. Broad spot beam pattern Vision X lights use multiple 10° optics or Iris Reflectors that are specifically arranged to still provide a large amount of distance with the added benefit of spread.

The All New Shocker X2 LED Light Bar packs two rows of our infamous Iris Reflectors with 5W ultra-bright LEDs to produce a wide and long-distance beam pattern that is prime for turning any nighttime adventure into daylight. The dual row LEDs means that we are doubling the output when compared to most of our single row LED light bars making the Shocker X2 the newest and brightest addition to our LED light bar range. Lastly, the Shocker X2 also features our smooth back-lit halo function that our off-road lights are known for. This new addition to the Shocker Series is available from 243mm-1295mm lengths.

NEW PRODUCT

MODULAR LIGHT BAR

The UNITE Modular LED Light Bar System brings lighting power and customization to the forefront by allowing you to build your light bar with endless configurations. Our all-new quick connect mounting rail gives you the ability to easily slide on and swap around the modules you choose. Each module features a 4-LED advanced optic design that comes in 18 different styles to match your lighting needs.

SLIDE AND LOCK MOUNTING SYSTEM

The quick connect rail system makes it easy for you to slide on, re-arrange, or swap out modules and is secured using stainless steel hardware.

WATERPROOF CONNECTING PINS

The "H" power connectors slide into watertight rubber fittings on either side of the module to allow power to be transferred from one module to the next.

HEAVY DUTY WING MOUNTS

Designed to withstand the abuse of any off road adventure, the end cap wing mounts ensure your Unite Bar will stay secured to your vehicle and allow for precise light angle adjustments.

CUSTOMIZE LIGHTING CONFIGURATIONS

Choose between 18 different modules giving you complete control over your lighting.

QUICK CONNECT RAIL

Easily switch between modules to match your lighting style.

ADJUSTABLE AIMING

Slotted heavy duty wing mounts allow for precise lighting placement.

- Endless Lighting Configurations
- Straight And Curved Bar Styles
- Amber, White, Yellow Lens Options
- Spot, Flood, and Elliptical Beam Pattern Options

- Frosted And Black-Out Faceplate Styles
- Adjustable Aiming End Cap Wing Mounts
- Quick Connect Rail System
- IP-68/69K Rated Housing

XPL FOG LED LIGHT BAR 5 YEARS FUNCTION WARRANTY 50.000 HOURS

ELLIPTICAL / FOG BEAM

Flat forward spread that keeps low to the ground . This unique pattern is perfect for on-road use and is projected using a special optic type that is specifically engineered to keep the light low the ground as to not blind oncoming vehicles.

Take to the new Vision X Fog series lights. Our re-designed XPL internals now feature our patented photon core technology that produces an ultra-wide fog beam with a sharp cut-off to not blind oncoming traffic, making it prime use. Available with our new selective yellow style lens, the XPL Fog light bar was built to tackle any weather conditions.

DURA LED LIGHT MORE VERSATILE

The Duralux Series was designed with vehicles in mind. The sleek and compact housing coupled with either 4 or 6 high output LEDs makes it the perfect light for any automotive application.

From fog lights to roof rack and reverse lighting, the Duralux Series combines versatility with affordability to create the ultimate lighting solution for any vehicle.

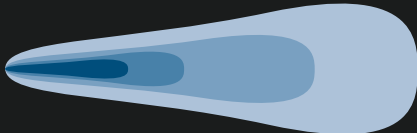

COMBO / DRIVING BEAM

Added peripheral illumination with the benefit of distance and spread. Similar to the broad spot beam, Vision X lights that produce a combo/mixed beam are equipped with multiple optics with varying degrees that angle light outward towards the side of your vehicle but still maintain distance and spread.

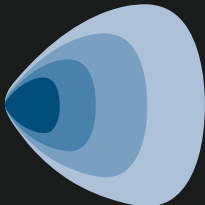

BROAD SPOT BEAM

Great distance beam with a moderate amount of spread. Broad spot beam pattern Vision X lights use multiple 10° optics or Iris Reflectors that are specifically arranged to still provide a large amount of distance with the added benefit of spread.

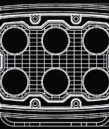

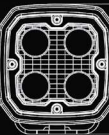

FLOOD / WIDE FLOOD BEAM

Largest spread with the shortest distance. Vision X Lights with a flood beam will use multiple wide angle optics (40°,60°) to produce a wide spread beam that is ideal for work area and scene lighting.

Vision X lights has stepped up to create a new line of bulletproof Off-Road Light Brackets beginning with the Jeep JL/Gladiator. No more shaky weak cheap brackets! Our new Armor Series line of off-road light brackets are specifically designed to take a beating and come back for more. Torture tested in off-road racing our new brackets are made entirely of 4130 alloy hardened American steel these new brackets allow you to mount your Vision X LED Light Canons directly to your Jeep JL/Gladiator without any cutting or drilling using factory mounting points.
